

MS Access (basic) (code: Access-101)

compliant with: Learn Microsoft Access 2010 Step by Step, Level 1
(compliant with MS 50532)

Overview

The course is designed to help the students familiarize themselves with Microsoft Access and gain the fundamental knowledge and skills required when working with the program. The students will learn how to create simple databases: including forms for entering data, queries to manipulate it and reports to show it.

Microsoft Certificate: for an additional fee of **20 GBP** per person, we provide registration with Microsoft Authorized Training system. Training participant registered in this system receives a certificate recognized and respected anywhere in the world, and additional electronic training materials provided by Microsoft.

Genuine Microsoft certification not only confirms the holder's skills - it can also be a valuable part of a resume. **Important:** authorization is available for on-demand training courses only.

Duration

2 days

Agenda

1. Introducing MS Access
 - Understanding purpose and features of Access
 - How it all works? Forms, Tables, Queries, Reports.
 - How to use it? Database vs Application.
